## Exercise descriptions

Crunches

Jus your lower back touches the ground and you try to go as high as possible while holding your legs still. Do the moves slowly and try to not use acceleration from the arms.

### Leg Raises

Lie on your back and outstretch your legs vertically. Then lower them down and raise them up again, without touching the ground. Don't go into a hollow back, place your palms on the ground, slightly below your butt to avoid this.

### Hips Bridge

Lie on your back and push your body up so that it forms a straight line. Keep this position and the body tension for the time. Use your arms to stabilize and pay attention that your hip doesn't dip down.

### Leg Shuffle

Fully extend your legs and shuffle your legs up and down. Pay attention that you're not falling into a hollow back.
