## Description

This is a nice workout for your legs!

## Exercise descriptions

### Running

Run in your own pace if not indicated otherwise

### Squats

Start from a shoulder wide stance and pay attention that your back is straight when going down. Push your butt back and keep the weight on your heels while your knees point slightly outward.

### Lunge Walk

Make a wide step forward so that your front knee is above the center of your foot and your back knee touches the ground slightly. Do this as a walking movement.
